Lawrence Prisby
215 North 100 West
Box 2
Joseph, UT 84739

Dear Mr. Prisby:

I have enclosed your plan of operations for the Goldfield No. 1 exploration project. I have described recommended changes on a separate page which, if you concur, will become part of the plan of operations.

Because your proposal involves surface disturbance and excavation of material, a reclamation bond in the amount of \$260 is required. I have included the bond calculation worksheet and a reclamation bond form for this amount. As shown on the worksheet, the bond was calculated based on the costs the Forest Service would incur to fill in, shape, and seed the excavated exploration trench.

I assumed that you would be posting the bond in cash (by check). If you prefer, you may assign a certificate of deposit or a savings account for that amount. Please let Steve Winslow know if you would rather choose one of these options and he will send the proper forms and paper work for your use. Otherwise, please make your check payable to "U.S.D.A. Forest Service."

Once you have reviewed and completed all the documents please return them to me. When I have received the documents and your payment for the bond, and upon completion of necessary site surveys, I will sign the plan and approve it for a period of two months, and return a final copy for your records.

Please call Steve Winslow if you have any questions.

Sincerely,

DAYLE R. FLANIGAN
District Ranger
